Your Honor:

Re: Patriot Bankruptcy

I am the 83-year old widow
of a Peabody miner who retired
in 1992 and died 2010.

Approximately 12 years ago I was
diagnosed with Crohn's disease
for which I am taking medication:
Asacol (12 pills a day) and Mercapto-
purine. I also receive Remisole
treatments every 8 weeks to help
control the disease. There is no
cure, I'm told.

It would be a considerable
hardship for me to lose my
health benefits and pension.

Sincerely

Marilyn Berger
