

Jan. 16, 2013

The Honorable Kathy A. Surratt-States,

I'm writing this letter begging you to consider our people, the coal miners and their families. If the miners lose their insurance, it can be a death sentence to many. By the time a miner works a few years their health declines and by the time they retire, most of them are very unhealthy.

I'm the wife of a coal miner, and I see them trying to make a living and they work for companies that are suppose to take care of them (because they told them they would) they give them their life and I think they should keep their word, that they will take care of them.

I see many families that have very sick people, my mother, for example, if she has no insurance, she will die. She takes chemo pills daily. Her medication is very costly. She lives on a small check and could not afford to pay for it. Not only my mom but many others I know will die without insurance.

What the Coal Company is trying to do is so unfair, I know you can help us. Please consider our people the coal miners and their families.

Thank you Mr. + Mrs Wm Persinger
